

Downloading high-resolution clips from British Pathe

The film clips (3,500 hours) and the stills (2,000,000 to choose from) are for educational use and can be edited for use in 'Powerpoint' type presentations, used with data projectors and whiteboards and placed into school intranets. They must not, however, be used on websites, published over the WWW or be made available beyond the school environment or be used for any commercial purpose.

Important note: you must be connected to the LEA broadband to download files. You can not download the high-resolution files for free from home.

Important note: Teachers and school managers are advised to read the Terms and Conditions before using these resources with students and pupils.
